

RoHS Directive 2011/65/EU

The raw materials used by **emtechnik** meet the requirements of **RoHS Directive 2011/65/EU**. That means they must not contain any lead, cadmium, chromium VI, mercury or the flame retardants PBB and PDBE and such materials are also not used anywhere in the production process.

EU Directive 2011/65/EU (RoHS 2) for restricting the use of certain hazardous substances in electrical and electronic devices governs the use of hazardous substances in devices and components.

The goal of the directive is to restrict the use of (specific) hazardous constituents in electrical and electronic devices that are placed in circulation in the EU. This directive and its respective implementation in national legislation are referred to collectively by the acronym **RoHS** (**R**estriction **o**f (the use of certain) **H**azardous **S**ubstances).
